STATE OF THE MARKET & REAL VALUE IN REAL TIME

As a private investor and as your CEO it is my opinion that the NEW ECONOMY of Blockchain technologies and Cryptocurrencies is still in fledgling mode, most tokens and coins are not only devoid of actual equity in the companies listing them they are not legally linked to any profits or value. The exchange system is flawed, this is why governments and regulators are questioning security over utility tokens and coins.

This is also why I am structuring our community in two ways SHAREHOLDER and UTILITY TOKENS, utility tokens are issued to raise capital and will be tradeable on exchanges and will be useable within the community for Seminars Events Merchandise Key Note Speaker events joint ventures and partnerships in the blockchain crypto economy, they will generally reflect real time value in our portfolio of Assets from day one. Being an investment company with a public portfolio, token holders are well placed to have real value in real trading time 24/7 and global exchanges will reflect this.

Now the real legally linked value comes in the form of EQUITY AS A SHAREHOLDER in CRYPTOCORP LTD the legal entity that owns HUMANITY ONE and POLYBLOCK CAPITAL, you will be treated as a shareholder but also guaranteed first rights to our future STO and IPO.

HONESTY – TRANSPARENCY – INVOLVEMENT & REWARD - COMMUNITY!

Humanity One " The Power Of One " - A Global Investment Community

I am personally disgruntled with ICOs simply a marketing exercise to raise money and either fold or depart with investors funds. ICOs are essentially crowd funding, I recognize this and offer a FIRST in the industry to give you real time value and return from day one.

CORPORATE STRUCTURE A FIRST IN THE BLOCKCHAIN CRYPTO NEW ECONOMY!

At Humanity One YOU are treated like a SHARHOLDER not just a TOKENHOLDER from day one!

YOU are guaranteed equity in the legal entity and as a Shareholder will be eligible for Dividends! Cryptocorp Ltd is an Australian based unlisted public company limited by shares. It is the legal entity that owns the assets of Humanity One. As you may know TOKEN HOLDERS are NOT legal SHAREHOLDERS they are allocated tokens and trade those tokens on exchanges but tokens do not translate to equity nor do the value of tokens necessarily reflect performance or value of the entity.

IN A GLOBAL FIRST! Humanity One will treat you as a shareholder and token holder and reward you accordingly. YOU are guaranteed first rights to become a SHAREHOLDER when we reach our goal of an STO (Security Token Offer through Polymath) or IPO (Listing on traditional Share markets) into the future.

NOW THE REAL BONUS IN THIS ICO!

Cryptocorp Ltd not only owns the trading entity HUMANITY ONE it also owns my private investment entity POLYBLOCK CAPITAL. As your CEO and too show my faith and commitment I am including this asset into the valuation, that's \$275,000 USD of value if you combine the cost of this ICO \$250,000 to \$300,000 USD plus marketing costs I am putting my own finances on the line. Remember you are guaranteed equity as a shareholder in the future.

As your CEO I currently DO NOT take a salary. I can be readily contacted at these details. I am always available to answer questions directly or through Social Media links.
